THE BLONDE SOLUTIONS METHOD:

A STYLIST'S GUIDE TO CLEAN LIFTING

THE SCIENCE:

What makes it different

TONES & LIFTS SIMULTANEOUSLY

Patented lightener contains red and blue capsules that neutralize warmth as it appears.

TONERS THAT TREAT

Liquid toners are infused with shea butter, cocoa butter, and rice protein.

"LOW AND SLOW" METHOD PROTECTS HAIR

Gentle formula can proceed for up to 2 hours without heat, preserving curl integrity.

THE METHOD:

Keys to a perfect blonde

MIX LITTLE AND OFTEN

Ensure pigmented capsules, activate in the bowl, preventing uneven color on the hair.

Ideally 2-4 minutes subject to volume.

SATURATION IS YOUR BEST FRIEND

Apply lightener so heavily that you cannot see the hair underneath for an even lift.

INCUBATE, DON'T BEND FOILS

Lay foils flat or in a fish hooly shape to prevent lines of demarcation.

MIXING RATIOS

SERVICE	RATIO*
Tight Foils / Face Frame	1:1
Scalp Bleach	1:1.5
Regular Foils	1:1.5
Balayage	1:1.5 - 1:2
Colour Correction	1:3

* CORRECT STARTING POINTS: Lightener to development ratio.

THE LOW & SLOW METHOD

GENTLE, EXTENDED BLONDING FOR ULTIMATE HAIR INTEGRITY

WHAT IS 'LOW AND SLOW'?

This gentler processing method allows developers to stay on the hair up to **90 minutes** or even **2 hours**. The result is cleaner, brighter, and stronger platinum blondes

THE PRIMARY BENEFITS

PRESERVES HAIR INTEGRITY

Gentle lightening maintains hair's health while minimizing risk of damage and breakage.

ALLOW ON SCALP APPLICATION

Safe, on-scalp processing from the start of the service, ensuring even and controlled lift.

MORE CONTROL DIMENSION

Controlled application ensures precise placement, delivering soft dimension and even, blended lift.

BLONDE BETTER WITH PATIENCE

Achieve stronger, brighter & healthier blondesconfidence

THE KEY TO FLAWLESS BLONDES

MASTERING SATURATION & MIXING RATIOS

WHY COMPLETE SATURATION MATTERS

Proper lift begins with applying enough product to completely saturate each section.

Remember our motto:

“Saturation is frosting and you don’t want to see the cookie underneath!”

Achieve the perfect saturation for even, brilliant lift!

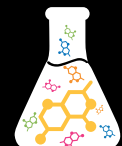

CHOOSE THE MIXING RATIO

These recommended ratios are designed to deliver consistent lift while maintaining hair health and control.

SERVICE	RATIO
Tight Foils / Face Frame	1:1
Scalp Bleach	1:1.5
Regular Foils	1:1.5
Balayage	1:1.5 - 1:2
Colour Correction	1:3
